

Surge Protection Contractors Catalogue

Tripconnect

Single phase 40A in line over/under voltage disconnect device.
Fixed or variable timing.
Hardwired for OEM applications.

12-00286

Appliance/Electric Motor Protection

16A plug-in line over/under voltage disconnect device with surge protection for use with refrigerators, motors and other equipment sensitive to poor supply voltage.

12-00602 - 5min delay - Refrigeration (Shown)

12-00603 - 10sec delay - Appliance

Appliance Filter & Surge Protection

16A plug-in protection and filtration for use with sensitive electronic equipment.

12-00025

Electronic Voltage Stabiliser

Regulates 175V - 255V input voltage to within 6% of 220V on output.

12-00328 - 500VA

12-00329 - 1200VA

12-00273 - 2500VA

12-00736 - 5000VA

Cordless Phone/Fax Protector

16A plug-in protection and filtration for use with sensitive electronic equipment.
Protects against power surges and induced lightning.

12-00706

Compact TV/DSTV Protector

Protection module for stand-alone TV and satellite systems.

Includes thermal disconnect and utilises the 'surge platform' concept.

12-00493

Protected Plug Tops

12-00055 - 16A Standard

12-00760 - 16A Standard with LED

12-00116 - 16A Keyed

12-00815 - 16A Keyed with LED
